Mayor Bragg Will Succeed Himself.

Republican esucus ever held in Bangor, last night paid HON, CHARLES F. BRAGO the very handsome compliment of an enthuslastic renomination for his third term as Mayor, he receiving 701 votes out of a total of 962. His competitor, Mr. F. O. would have been a large following, but the fact that so many of our citizens felt that the important business, auspiciously inaugurated under Mayor Brage's adminlatration should be completed under his direction, as well as a general desire to recognize faithful services, lead to an simpst unprecedented outpouring on Republicans in llayor of his renomination. Such an indorsement from our most rente septative citizens cannut be otherwise than highly igratifying to Mr. Brugg During his oclumator of the office he be had much pion than the usual routine the falls to the lot of the average Mayor to look after. Paa rallroad duestion, th electric light question, the refunding of the E & N. A. Ruitway bex and that rebuild ng of a portion of Kenduskeng Bridge are some of the more Important unatters that have demanded his attention and to each and all he has given careful consideration and almost constant application. Thus if will be seen that his office has by no means been a slaceure, especially during the past ye'ar when it has made extraordinary demands upon his time. While his has been a progressive administration, as shown in the contract for the electric light plant, a step in the right direction, it has been pru deatly and economically conducted so that the financial affairs of the city tro, in excellent condition, a fact that will be fully appreclated by the tax payers. President Harrison nominated the Cab-lact which had been accurately foreshadowed, and the Senate promptly confirmed · The public judgment of approval had already, been pronounced. The people have recognized it as peculiarly the President's own Cabinet, determined by his own original and personal selection, free from Individual or factional control, and chosen on clear sound and commanding principles. It means Party Harmony, Administrative Unity, and Good Government above all things. The country believes in Harrison and welcomes a Harrison Cabinet. Costly Rind of Success.

To my mind, the one sided success of men who secure wealth at the expense of health, character and other culture, who deliberately smother, all their finer sensibilities, and humans impulses, such success, I say, is not worth emulating, for it is wikent, their own happiness is not enhanced, and their accumulations are secured at the expense of their capacity for enjoying the good things of this life, and, as many of us believe, to the detriment of the life which is to come. Such, success, (though, as goos hand in hand with a proper care of ene's mental moral and physical wolfare, as takes others of our co-workers right along up with us to a higher level, and does not strew our pathway, with wreels which we have included largely to make; such success as comes through samplying a legitimate public want in an honest, intelligent, skillful way, and uses increasing power and facility for usefulness wisely, is greatly to be desired and attended with no prejudicial influences to any one—F. M Atwood in Chicago Journal.

The Flower bot Bonest.

Somebidy recommends having flowers in the bonest really growing there, but does not any whether or not his researches have revealed to him the weight of a cubic feet of earth, or the material of which the ordinary woman's spinal column is composed. Still there might be werse things for the health than compolling a woman to carry lor head creet by placing a heavy weight on it. Bring on the flower pot bounet.—Boston Transcript.

Getting It Down Fine.

"No lunch for you, my sen, to-day!"
